

## AIAPGET 2018 Question and Answer Key

**Q. No.: 101** - Muscles forming boundaries of digastric triangle are all except

**Options:**

- 1) Anterior belly of digastric
- 2) Posterior belly of digastric
- 3) Stylohyoid
- 4) Sternocleidomastoid

**Correct Answer: 4) Sternocleidomastoid**

**Q. No. : 102** - Which of the following area is known as the dangerous area of the scalp

**Options:**

- 1) Skin
- 2) Superficial Fascia
- 3) Deep Fascia
- 4) Loose Areolar Tissue

**Correct Answer: 4) Loose Areolar Tissue**

**Q. No. : 103** - A person was unable to close his right eye. There is dribbling of saliva from right angle of his mouth and he is unable to make a pout. The probable diagnosis is

**Options:**

- 1) Bell's Palsy
- 2) Trigeminal Neuralgia
- 3) Optic Nerve Injury
- 4) Oculomotor Nerve Injury

**Correct Answer: 1) Bell's Palsy**

**Q. No. : 104** - Radiographic 'Shenton's Line' is observed in respect of which joint

**Options:**

- 1) Hip Joint
- 2) Knee Joint
- 3) Shoulder Joint
- 4) Elbow Joint

**Correct Answer: 1) Hip Joint**

**Q. No. : 105** - Ketone bodies are utilized by all tissues except

**Options:**

- 1) Liver
- 2) Muscle
- 3) Heart
- 4) Kidney

## AIAPGET 2018 Question and Answer Key

**Correct Answer:** 1) Liver

**Q. No. : 106** - The most abundant protein in the body is

**Options:**

- 1) Albumin
- 2) Globulin
- 3) Collagen
- 4) Fibrinogen

**Correct Answer:** 3) Collagen

**Q. No. : 107** - Which of the following is the most universally accepted and sensitive indicator of the whole population and the socio-economic condition under which they live

**Options:**

- 1) Disability Rate
- 2) Infant Mortality Rate
- 3) Under-5 Proportionate Mortality Rate
- 4) Life Expectancy

**Correct Answer:** 2) Infant Mortality Rate

**Q. No. : 108** - Which of the following characteristic should be considered most important while applying a screening test in lethal disease like cancer

**Options:**

- 1) Sensitivity
- 2) Specificity
- 3) Simplicity
- 4) Rapidity

**Correct Answer:** 1) Sensitivity

**Q. No. : 109** - Which one among the following is **not** considered as millet

**Options:**

- 1) Jowar
- 2) Bajra
- 3) Maize
- 4) Ragi

**Correct Answer:** 3) Maize

**Q. No. : 110** - Out of the following, which is the most ideal time for insertion of an intra uterine contraceptive device?

**Options:**

- 1) Immediate post-partum i.e. within first week of delivery

## AIAPGET 2018 Question and Answer Key

- 2) Post-puerperal i.e. 6-8 weeks after delivery
- 3) Immediately after second trimester legal abortion
- 4) During last week of menstrual cycle

**Correct Answer:** 2) Post-puerperal i.e. 6-8 weeks after delivery

**Q. No. : 111** - Most reliable method of identification of a person is

**Options:**

- 1) Galton method
- 2) Gustafson method
- 3) Anthropometry
- 4) Scars

**Correct Answer:** 1) Galton method

**Q. No. : 112** - Flaying is seen in which type of laceration

**Options:**

- 1) Split
- 2) Avulsion
- 3) Tear
- 4) Stretch

**Correct Answer:** 2) Avulsion

**Q. No. : 113** - 'Absence of pain, where it could be expected' is a noticeable feature of

**Options:**

- 1) Antim crud.
- 2) Aconite
- 3) Coffea
- 4) Baptisia

**Correct Answer:** 1) Antim crud.

**Q. No. : 114** - "Cool sweat on the face, especially around the mouth and nose" is a feature of

**Options:**

- 1) Chamomilla
- 2) Rheum
- 3) Opium
- 4) Natrum mur.

**Correct Answer:** 2) Rheum

**Q. No. : 115** - A Patient complains of 'Beating of pulses throughout the body, especially in the right thigh'. The remedy indicated for this patient is

## AIAPGET 2018 Question and Answer Key

### **Options:**

- 1) Belladonna
- 2) Glonoine
- 3) Baryta mur.
- 4) Veratrum viride

**Correct Answer:** 4) Veratrum viride

**Q. No. : 116** - According to J.T. Kent, which remedy is especially indicated in those persons who manifest momentary fleeting inquisitiveness, jumping from one subject to another

### **Options:**

- 1) Aethusa cynapium
- 2) Ambra grisea
- 3) Petroleum
- 4) Silicea

**Correct Answer:** 2) Ambra grisea

**Q. No. : 117** - "Cannot bear to be touched, starts when touched ever so lightly, especially on the feet" is a feature of

### **Options:**

- 1) Lachesis
- 2) Lycopodium
- 3) Medorrhinum
- 4) Kali carb.

**Correct Answer:** 4) Kali carb.

**Q. No. : 118** - In a patient suffering from ARCUS SENILIS, which Chapter of Kent's repertory needs to be referred to find medicines specifically covering this pathology.

### **Options:**

- 1) Eye
- 2) Vision
- 3) Generalities
- 4) Head

**Correct Answer:** 1) Eye

**Q. No. : 119** - Which of the following concept is Fundamental basis of Boenninghausen's Therapeutic Pocket Book.

### **Options:**

- 1) Doctrine of Tautopathy
- 2) Doctrine of Pathological General
- 3) Doctrine of Analogy
- 4) Doctrine of Nosodotherapy

## AIAPGET 2018 Question and Answer Key

**Correct Answer:** 3) Doctrine of Analogy

**Q. No. : 120** - 'Wraps up in Fur in summers' is found in which chapter of Kent's Repertory

**Options:**

- 1) Mind
- 2) Extremities
- 3) Fever
- 4) Generalities

**Correct Answer:** 1) Mind

**Q. No. : 121** -

Match the following medicines with their time of Aggravation of Heat

Stage in FEVER as given in Kent's Repertory

i)	Chamomilla	a)	9 am
ii)	Bryonia	b)	4 - 8 pm
iii)	Hellebores	c)	9 pm

**Options:**

- 1) i-a, ii-c, iii-b
- 2) i-a, ii-b, iii-c
- 3) i-b, ii-a, iii-c
- 4) i-c, ii-b, iii-a

**Correct Answer:** 1) i-a, ii-c, iii-b

**Q. No. : 122** - The only remedy for Rubric "BESEECHING" in mind section of BBCR is

**Options:**

- 1) Arsenic Alb
- 2) Belladonna
- 3) Stramonium
- 4) Lachesis

**Correct Answer:** 3) Stramonium

**Q. No. : 123** - No flatus emitted upward or downward, especially after abdominal operation, is a feature of

**Options:**

- 1) Anacardium
- 2) Bryonia
- 3) Carbo veg.
- 4) Raphanus

**Correct Answer:** 4) Raphanus

## AIAPGET 2018 Question and Answer Key

**Q. No. : 124 -**

Match List I with List II and select the correct answer using the codes given below the list:

<u>Remedy (List-I)</u>	<u>Inimical (List-II)</u>
a) Silicea	i) Ranunculus bulbosus
b) Staphysagria	ii) Zincum met.
c) Chamomilla	iii) Merc. sol.
d) Arum triphyllum	iv) Caladium

**Options:**

- 1) a-iii, b-i, c-ii, d-iv
- 2) a-i, b-ii, c-iii, d-iv
- 3) a-iii, b-ii, c-iv, d-i
- 4) a-iv, b-ii, c-i, d-iii

**Correct Answer: 1)** a-iii, b-i, c-ii, d-iv

**Q. No. : 125 -**

Match List I with List II and select the correct answer using the codes given below the list:

<u>Symptom (List-I)</u>	<u>Remedy (List-II)</u>
a) Afraid of sharp pointed things, pins, needles	i) Staphysagria
b) Stitches in throat flying to the ear on swallowing, especially left	ii) Onosmodium
c) Feeling as if heart leaped into throat	iii) Spigelia
d) Sexual desire completely destroyed in females.	iv) Phytolacca

**Options:**

- 1) a-iii, b-i, c-iv, d-ii
- 2) a-ii, b-i, c-iv, d-iii
- 3) a-ii, b-iv, c-i, d-iii
- 4) a-iv, b-ii, c-iii, d-i

**Correct Answer: 1)** a-iii, b-i, c-iv, d-ii

**Q. No. : 126 -** The most common position of vertex at the time of engagement is

**Options:**

- 1) Left Occipito transverse
- 2) Right Occipito transverse
- 3) Left Occipito-anterior
- 4) Right Occipito-anterior

## AIAPGET 2018 Question and Answer Key

**Correct Answer:** 1) Left Occipito transverse

**Q. No. : 127** - Which of the following does not physiologically increase in pregnancy

**Options:**

- 1) Stroke Volume
- 2) Cardiac output
- 3) Intravascular Volume
- 4) Blood Pressure

**Correct Answer:** 4) Blood Pressure

**Q. No. : 128** - Pseudocyesis includes the following features except

**Options:**

- 1) Distension of abdomen
- 2) hCG levels double every 72 hours
- 3) Amenorrhoea
- 4) Morning Sickness

**Correct Answer:** 2) hCG levels double every 72 hours

**Q. No. : 129** - Lovset maneuver in breech presentation is meant to facilitate delivery of

**Options:**

- 1) Aftercoming head
- 2) Feet
- 3) Arms and shoulders
- 4) Trunk

**Correct Answer:** 3) Arms and shoulders

**Q. No. : 130** - In uterine prolapse, decubitus ulcer is caused by

**Options:**

- 1) Acute inflammation
- 2) Malignant Changes
- 3) Friction
- 4) Venous Congestion

**Correct Answer:** 4) Venous Congestion

**Q. No. : 131** - Which of the following is characteristic radiological sign of Intra-uterine fetal death

**Options:**

- 1) Spalding's sign
- 2) Moses sign

## AIAPGET 2018 Question and Answer Key

3) Dequervain's Sign

4) Chvostek sign

**Correct Answer:** 1) Spalding's sign

**Q. No. : 132** - Placenta secretes all the hormones except

**Options:**

1) HCG

2) Prolactin

3) Estrogen

4) Human Placental Lactogen

**Correct Answer:** 2) Prolactin

**Q. No. : 133** - Which of the following statement is FALSE regarding Krukenberg tumors

**Options:**

1) They are primary ovarian carcinomas that always secondarily metastasize to Gastrointestinal organs

2) They are almost invariably bilateral

3) There is no infiltration through the capsule

4) They are freely movable in pelvis

**Correct Answer:** 1) They are primary ovarian carcinomas that always secondarily metastasize to Gastrointestinal organs

**Q. No. : 134** - Which one of the following type of chronic disease was considered by Hahnemann as most deplorable and most incurable

**Options:**

1) Artificial Chronic diseases

2) Pseudo chronic diseases

3) Epidemic diseases

4) True chronic miasmatic diseases

**Correct Answer:** 1) Artificial Chronic diseases

**Q. No. : 135** - In remedy reaction, where the aggravation is quick, short and strong with rapid improvement of patient, inference is all except

**Options:**

1) There are no structural changes

2) Disease is of superficial nature

3) Disease has not severely affected vital organs

4) Changes are comparable to changes in deeper organs

**Correct Answer:** 4) Changes are comparable to changes in deeper organs

**Q. No. : 136** - The second edition of Organon was published at

## AIAPGET 2018 Question and Answer Key

**Options:**

- 1) Paris
- 2) Leipzig
- 3) Koethen
- 4) Boston

**Correct Answer:** 2) Leipzig

**Q. No. : 137** - Psychological counselling of a patient that relieves suffering brought upon by psychological exciting factor was designated by Hahnemann as

**Options:**

- 1) Cryotherapy
- 2) Iatrogenesis
- 3) Moral Remedy
- 4) Tautopathy

**Correct Answer:** 3) Moral Remedy

**Q. No. : 138** - The Fundamental law of Palliation in Homoeopathic treatment of Incurable disease condition is

**Options:**

- 1) Law of Similars
- 2) Aequalia Aequalibus Curentur
- 3) Contraria Contrariis Curentur
- 4) Enantiopathy

**Correct Answer:** 1) Law of Similars

**Q. No. : 139** - According to Stuart Close, the Second best remedy is

**Options:**

- 1) Antipathic Medicine
- 2) Sulphur in Higher Dynamisation
- 3) Saccharum Lactis Officinalis
- 4) Vitamin Supplement

**Correct Answer:** 3) Saccharum Lactis Officinalis

**Q. No. : 140** - The peculiarity of Homeopathic treatment of PRIMARY Stage of PSORA is that it demands

**Options:**

- 1) Specific Remedy In Large Doses
- 2) Surgical Intervention
- 3) Local Application
- 4) Nosodotherapy

## AIAPGET 2018 Question and Answer Key

**Correct Answer:** 1) Specific Remedy In Large Doses

**Q. No. : 141** - According to Hahnemann, which scale of potency is capable of producing medicines of highest development of power and mildest action

**Options:**

- 1) Straight Potency
- 2) Jumping Potency
- 3) Decimal Stale of Potency
- 4) Fifty Millesimal Scale of Potency

**Correct Answer:** 4) Fifty Millesimal Scale of Potency

**Q. No. : 142** - "Coldness with aversion to being covered" is an example of

**Options:**

- 1) Mental General
- 2) Kent's Particular Symptom
- 3) Garthe Boericke's Basic Symptom
- 4) Negative General Symptom

**Correct Answer:** 4) Negative General Symptom

**Q. No. : 143** - "Sudden Fainting from least smell of cooking oil " is an example of

**Options:**

- 1) Local Disease
- 2) Intermittent Disease
- 3) Surrogates
- 4) Idiosyncrasy

**Correct Answer:** 4) Idiosyncrasy

**Q. No. : 144** - Which of the following article of Hahnemann is considered as precursor of ORGANON

**Options:**

- 1) The Friends of Health
- 2) The Medicine of Experience
- 3) The Medical Observer
- 4) Cure and Prevention of Asiatic Cholera

**Correct Answer:** 2) The Medicine of Experience

**Q. No. : 145** - H.A. Robert's concept of "DEFLECTED CURRENT" Signifies

**Options:**

- 1) Electrocutation
- 2) Magnetism

## AIAPGET 2018 Question and Answer Key

3) Obstacle to Cure

4) Galvanism

**Correct Answer:** 3) Obstacle to Cure

**Q. No. : 146** - Hahnemann conceived idea of Cinchona bark experiment during the translation of

**Options:**

1) Monroe's "Materia Medica"

2) Cullen's "Treatise on Materia Medica"

3) Lewin's "Secondary Effects of Remedies"

4) Herings "Guiding Symptoms of Materia Medica"

**Correct Answer:** 2) Cullen's "Treatise on Materia Medica"

**Q. No. : 147** -

Match the following: -

i) Brousseau	a) Human Drug Proving
ii) Albrecht von Haller	b) Contraria Contraris
iii) Galen	c) Bloodletting

**Options:**

1) i-a, ii-b, iii-c

2) i-b, ii-c, iii-a,

3) i-c, ii-a, iii-b,

4) i-a, ii-c, iii-b,

**Correct Answer:** 3) i-c, ii-a, iii-b,

**Q. No. : 148** - The method used for preparing tincture from the mucilaginous and gummy substances from vegetable or animal kingdom is

**Options:**

1) Distillation

2) Sublimation

3) Maceration

4) Crystallisation

**Correct Answer:** 3) Maceration

**Q. No. : 149** - Who introduced the Decimal Scale of potency

**Options:**

1) Dr S. Hahnemann

2) Dr C. Hering

3) Dr H.A. Robert

4) Dr J.T. Kent

## AIAPGET 2018 Question and Answer Key

**Correct Answer:** 2) Dr C. Hering

**Q. No. : 150** - Which of the following is NOT a characteristic of Sugar of milk

**Options:**

- 1) It is odourless
- 2) It is milky white
- 3) It is soluble in alcohol
- 4) It is an important solid vehicle

**Correct Answer:** 3) It is soluble in alcohol

**Q. No. : 151** - Cones are prepared from

**Options:**

- 1) Milk Sugar
- 2) Mixture of Glucose and distilled water
- 3) Mixture of Cane Sugar and Egg albumin
- 4) Dextrose

**Correct Answer:** 3) Mixture of Cane Sugar and Egg albumin

**Q. No. : 152** - Which part of the plant of *Cinchona officinalis* is used for its preparation

**Options:**

- 1) Bark
- 2) Stem with leaves
- 3) Roots
- 4) Whole plant

**Correct Answer:** 1) Bark

**Q. No. : 153** - The principal site of peripheral resistance in circulation is

**Options:**

- 1) Large arteries
- 2) Arterioles
- 3) Capillaries
- 4) Veins

**Correct Answer:** 2) Arterioles

**Q. No. : 154** - The rise in basal body temperature at the time of ovulation is because of

**Options:**

- 1) Decreased estrogen
- 2) Increased Progesterone
- 3) Decreased Leutinizing hormone
- 4) Increased Follicular Stimulating hormone

## AIAPGET 2018 Question and Answer Key

**Correct Answer:** 2) Increased Progesterone

**Q. No. : 155** - An 11 year old girl presents with the following complaints

- (1) Difficulty in climbing upstairs and combing her hair
- (2) Maculopapular rash over MCP joints
- (3) Gower's sign Positive. The most appropriate investigation to be advised is

**Options:**

- 1) ESR
- 2) Creatine Kinase
- 3) RA Factor
- 4) ANA antibodies test

**Correct Answer:** 2) Creatine Kinase

**Q. No. : 156** - All are features of scurvy except

**Options:**

- 1) Bitot's spots
- 2) Sub periosteal bleeding
- 3) Follicular hyperkeratosis
- 4) Cork screw hair

**Correct Answer:** 1) Bitot's spots

**Q. No. : 157** - DIC can occur in all of the following except

**Options:**

- 1) Placenta Praevia
- 2) Haemophilia
- 3) Falciparum Malaria
- 4) Snake Bite

**Correct Answer:** 2) Haemophilia

**Q. No. : 158** - The liver enzyme which is sensitive indicator of liver cell injury and is most helpful in recognizing acute hepatocellular diseases is

**Options:**

- 1) Alkaline Phosphatase
- 2) Aspartate aminotransferase
- 3) Gamma glutamyl Transpeptidase
- 4) Creatine Phosphokinase

**Correct Answer:** 2) Aspartate aminotransferase

**Q. No. : 159** - Which of these conditions will be associated with steatorrhea.

**Options:**

## AIAPGET 2018 Question and Answer Key

- 1) Primary lactase deficiency
- 2) Pernicious anemia
- 3) Ulcerative colitis
- 4) Chronic Pancreatitis

**Correct Answer:** 4) Chronic Pancreatitis

**Q. No. : 160** - The Spirometry finding found during episodes of Bronchial Asthma is

**Options:**

- 1) Marked reduction in FVC
- 2) Normal or increased FEV1/FVC ratio
- 3) Marked reduction in FEV1
- 4) Increased peak expiratory Flow

**Correct Answer:** 3) Marked reduction in FEV1

**Q. No. : 161** - Following observations were made during examination of a newborn child.

On the basis of given observations, ascertain the APGAR score

- (1) Newborn makes grimaces on stimulation of sole of the Foot.
- (2) Respiration slow & irregular
- (3) Heart rate – 90/min
- (4) There was some flexion of the limbs
- (5) Color of the body was pink

**Options:**

- 1) 5
- 2) 6
- 3) 7
- 4) 8

**Correct Answer:** 2) 6

**Q. No. : 162** - A middle aged female presented with following symptoms - Hirsutism, fragility of skin, with easy bruising, broad purplish striae and signs of proximal myopathy. The first step in confirming the diagnosis will be

**Options:**

- 1) Advice 24 hours urinary free cortisol excretion
- 2) Exclude exogenous Glucocorticoid use
- 3) Advice plasma ACTH estimation
- 4) Advice dexamethasone overnight test

**Correct Answer:** 2) Exclude exogenous Glucocorticoid use

**Q. No. : 163** - Pretibial myxedema is a feature of

**Options:**

- 1) Diabetes mellitus
- 2) Hypothyroidism

## AIAPGET 2018 Question and Answer Key

3) Grave's Disease

4) Malignancy

**Correct Answer:** 3) Grave's Disease

**Q. No. : 164** - Which of the following statement(s) about epileptic seizure is/are correct

(1) "Jacksonian march" represents spread of seizure activity over motor cortex

(2) Focal seizures of temporal cortex cause psychic symptoms

(3) Typical absence seizures are followed by post ictal confusion

(4) Epilepsia partialis continua may continue for hours or days

**Options:**

1) 1, 2 and 4

2) 3 and 4

3) 1 and 4

4) 2, 3 and 4

**Correct Answer:** 1) 1, 2 and 4

**Q. No. : 165** - Myasthenia Gravis is characterized by

**Options:**

1) Decrease in acetylcholine reserve in motor nerve terminal

2) Decrease in dopamine reserve in motor nerve terminal

3) Decrease in receptors for acetylcholine

4) Decrease in dopamine receptors

**Correct Answer:** 3) Decrease in receptors for acetylcholine

**Q. No. : 166** - How many medicines were added by Dr. T.F Allen in the section of Relationship of Remedies of Therapeutic Pocket Book.

**Options:**

1) 20

2) 21

3) 148

4) 220

**Correct Answer:** 2) 21

**Q. No. : 167** - The first edition of the Homeopathic Therapeutics of Diarrhoea by J.B Bell was published in Year

**Options:**

1) 1869

2) 1879

3) 1881

4) 1882

**Correct Answer:** 1) 1869

## AIAPGET 2018 Question and Answer Key

**Q. No. : 168** - Which of following statement is **not** correct for rubric 'Pulse'.

**Options:**

- 1) In Kent's Repertory, Pulse is given in Generalities
- 2) In BBCR, Pulse is given in Circulation
- 3) In TPB, Pulse is given in Sensation
- 4) In Knerr's Repertory, Pulse is given as separate chapter

**Correct Answer: 3)** In TPB, Pulse is given in Sensation

**Q. No. : 169** - Which of following statement is **not** Correct.

**Options:**

- 1) Gentry repertory has 420 medicines
- 2) In Knerr's Repertory, Sensorium chapter is given
- 3) Boericke repertory has 2 gradation
- 4) Emergency conditions chapter is given in Knerr's Repertory

**Correct Answer: 4)** Emergency conditions chapter is given in Knerr's Repertory

**Q. No. : 170** - Who introduced gradation of remedies in Repertory.

**Options:**

- 1) Dr. Ciper
- 2) Dr. Boenninghausen
- 3) Dr. Jahr
- 4) Dr. Lippe

**Correct Answer: 2)** Dr. Boenninghausen

**Q. No. : 171** - 'Abscess in perineum' is given in which chapter of Kent's Repertory

**Options:**

- 1) Genitalia
- 2) Skin
- 3) Generalities
- 4) Rectum

**Correct Answer: 4)** Rectum

**Q. No. : 172** - Which of the following chapter of Kent's Repertory did not show the alphabetic arrangement of rubrics.

**Options:**

- 1) Cough
- 2) Hearing
- 3) Prostate
- 4) Vision

## AIAPGET 2018 Question and Answer Key

**Correct Answer:** 1) Cough

**Q. No. : 173** - In which of the following chapter of Kent's Repertory of Homoeopathic Materia Medica, you will NOT find the rubric 'Aphthae'.

**Options:**

- 1) Face
- 2) Mouth
- 3) Genitalia - Female
- 4) Generalities

**Correct Answer:** 4) Generalities

**Q. No. : 174** - Which of following statement is **incorrect** according to BCCR Repertory

**Options:**

- 1) Radiating pain is given under Sensation & Complaints in General
- 2) Typhoid fever is given under Fever - Pathological types
- 3) Pregnancy is given under Sexual Impulse
- 4) Tetters is given in Skin & Exterior body

**Correct Answer:** 3) Pregnancy is given under Sexual Impulse

**Q. No. : 175** - Rubric for 'Abortion' is given in which of following chapter of Therapeutic Pocket Book

**Options:**

- 1) Sexual organ
- 2) Leucorrhoea
- 3) Menstruation
- 4) Sensation

**Correct Answer:** 3) Menstruation

**Q. No. : 176** - In which of following Dr. Boenninghausen's repertory, Dr. Samuel Hahnemann has given introduction on the Repetition of Homoeopathic medicines

**Options:**

- 1) A Cure of cholera & its preventatives
- 2) A Systematic alphabetic Repertory of Homoeopathic Remedies
- 3) Attempt at Homoeopathic Therapy of Intermittent fever
- 4) Attempt at showing Relative kinship of Homeopathic medicines

**Correct Answer:** 2) A Systematic alphabetic Repertory of Homoeopathic Remedies

**Q. No. : 177** - Which of the following is characteristic feature of Le Fort II fracture

**Options:**

- 1) The fracture line runs through the root of the nose, lacrimal bone, floor of orbit, upper

## AIAPGET 2018 Question and Answer Key

part of maxillary sinus and pterygoid plates

2) The fracture line runs above and parallel to the palate and crosses lower part of nasal septum, maxillary antra and the pterygoid plates

3) Complete separation of the facial bones from the cranial bones

4) Isolated fracture of orbital floor

**Correct Answer: 1)** The fracture line runs through the root of the nose, lacrimal bone, floor of orbit, upper part of maxillary sinus and pterygoid plates

**Q. No. : 178** - Kehr's sign is a classical feature of

**Options:**

1) Rupture of liver

2) Acute pancreatitis

3) Acute intestinal obstruction

4) Rupture of spleen

**Correct Answer: 4)** Rupture of spleen

**Q. No. : 179** - Which of the following medical sign is observed in Latent Tetany

**Options:**

1) Trousseau's sign

2) Pratt's sign

3) Blumberg's sign

4) Fox's sign

**Correct Answer: 1)** Trousseau's sign

**Q. No. : 180** - Among the following which is **not** the feature of Paget's disease of Breast

**Options:**

1) Itching

2) Unilateral presentation

3) Nipples usually destroyed

4) Underlying lump is usually present

**Correct Answer: 1)** Itching

**Q. No. : 181** - Which among the following BIRADS category is highly suggestive of malignancy

**Options:**

1) BIRADS- V

2) BIRADS – III

3) BIRADS-II

4) BIRADS- 0

**Correct Answer: 1)** BIRADS- V

## AIAPGET 2018 Question and Answer Key

**Q. No. : 182** - 40 year old lady presented with swelling in the right side of the upper part of the neck below the ear lobule for last 10 years. Swelling is painless and gradually growing. **Correct Answer: 4)** Mixed parotid tumour

**Q. No. : 183** - Radiological 'Colon cut off sign' is seen in

**Options:**

- 1) Acute intussusception
- 2) Acute lobar pneumonia
- 3) Acute pancreatitis
- 4) Crohn's disease

**Correct Answer: 3)** Acute pancreatitis

**Q. No. : 184** - Which is the most common site of pressure sore

**Options:**

- 1) Sacrum
- 2) Heel
- 3) Ischium
- 4) Greater Trochanter

**Correct Answer: 3)** Ischium

**Q. No. : 185** - Which of the following has drum stick appearance

**Options:**

- 1) Clostridium tetani
- 2) Pneumococcus
- 3) Streptococcus pneumoniae
- 4) Staphylococcus epidermis

**Correct Answer: 1)** Clostridium tetani

**Q. No. : 186** - Barium swallow study of a patient suffering from dysphagia revealed Bird's beak appearance of esophagus. The most probable diagnosis is

**Options:**

- 1) Reflux esophagitis

## AIAPGET 2018 Question and Answer Key

- 2) Barrett's esophagus
- 3) Hiatus hernia
- 4) Achalasia cardia

**Correct Answer:** 4) Achalasia cardia

**Q. No. : 187** - Asthma worse in foggy weather and relieved by profuse perspiration, is seen in

**Options:**

- 1) Hypericum
- 2) Lachesis
- 3) Sambucus
- 4) Carbo veg.

**Correct Answer:** 1) Hypericum

**Q. No. : 188** - According to J.T. Kent, one of the best remedies for retention of urine in the new born is

**Options:**

- 1) Chamomilla
- 2) Podophyllum
- 3) Aconitum napellus
- 4) Dulcamara

**Correct Answer:** 3) Aconitum napellus

**Q. No. : 189** - Diarrhoea like dirty water, from fruit or sour kroust is seen in

**Options:**

- 1) Cinchona
- 2) Croton tig.
- 3) Petroleum
- 4) Bryonia alba

**Correct Answer:** 4) Bryonia alba

**Q. No. : 190** - Which of the following medicine is **not** included in Nash's trio of weakness.

**Options:**

- 1) Carbo veg.
- 2) Arsenicum album
- 3) Muriatic acid
- 4) Cinchona

**Correct Answer:** 4) Cinchona

**Q. No. : 191** - Coffea cruda belongs to the family of

## AIAPGET 2018 Question and Answer Key

**Options:**

- 1) Liliaceae
- 2) Papaveraceae
- 3) Rubiaceae
- 4) Umbelliferae

**Correct Answer:** 3) Rubiaceae

**Q. No. : 192** - Which remedy has vomiting, bilious with anxiety and weak pulse, every month after menstruation, cannot lie on right side or back without instantly producing dark green vomiting.

**Options:**

- 1) Argentum nitricum
- 2) Antimonium tart.
- 3) Crotalus horridus

**Correct Answer:** 3) Crotalus horridus

**Q. No. : 193** - This remedy can be given in pertussis , after Drosera has relieved the severe symptoms

**Options:**

- 1) Cina
- 2) Cuprum met.
- 3) Corallium rubrum
- 4) Euphrasia

**Correct Answer:** 1) Cina

**Q. No. : 194** - Red infarct are seen in

**Options:**

- 1) Lungs
- 2) Kidneys
- 3) Spleen
- 4) Bones

**Correct Answer:** 1) Lungs

**Q. No. : 195** - Urine examination (Benedict's test) of a 40 yr old obese male showed a brick red precipitate. This can result from all except

**Options:**

- 1) Diabetes Mellitus
- 2) Drugs
- 3) Acute post-streptococcal glomerulonephritis
- 4) Cushing's syndrome

## AIAPGET 2018 Question and Answer Key

**Correct Answer:** 3) Acute post-streptococcal glomerulonephritis

**Q. No. : 196** - Hemophilia A is characterised by deficiency of

**Options:**

- 1) Factor VII
- 2) Factor VIII
- 3) Factor IX
- 4) Factor XI

**Correct Answer:** 2) Factor VIII

**Q. No. : 197** - Serum ferritin is a maker of

**Options:**

- 1) Circulating Iron
- 2) Storage iron
- 3) Folate
- 4) Vitamin B12 Levels

**Correct Answer:** 2) Storage iron

**Q. No. : 198** - Sjogren's syndrome is a chronic disease characterized by which of the following clinical feature:

**Options:**

- 1) Esophageal dysmotility
- 2) Keratoconjunctivitis sicca
- 3) Widespread damage to small blood vessels
- 4) Libmann Sachs Endocarditis

**Correct Answer:** 2) Keratoconjunctivitis sicca

**Q. No. : 199** - Which of the following is the most common cause of Hypothyroidism in iodine sufficient area?

**Options:**

- 1) Iatrogenic hypothyroidism
- 2) Post-partum thyroiditis
- 3) Autoimmune thyroiditis
- 4) Thyroid aplasia

**Correct Answer:** 3) Autoimmune thyroiditis
